

ConocoPhillips, in collaboration with the Government of Timor-Leste through the Secretary of State for Vocational Training and Employment (SEFOPE), and National Petroleum and Mineral Authority (ANPM) and in partnership with Actemium Oil and Gas and National Training Centre for Professional Training and Employment (CNEFP), is commencing the 2019 Electrical & Instrumentation Skills Vocational Training Program.

## 2019 Electrical and Instrumentation Skills Vocational Training Program

As part of the Bayu-Undan Cost-recoverable Local Content Project, ConocoPhillips and its Joint Venturers, in collaboration with the Government of Timor-Leste through the Secretary of State for Vocational Training and Employment (SEFOPE), National Petroleum and Mineral Authority (ANPM), and in partnership with Actemium Oil & Gas Training & National Training Centre for Professional Training and Employment (CNEFP) is providing an Electrical & Instrumentation Vocational Training Program with International Quality & Standards.

Built on the successful implementation of the first pilot program in Timor-Leste, this training program will run for one (1) full year, during which students will receive theoretical knowledge & practical skills in Electrical & Instrumentation Maintenance. Training will be conducted entirely in English, using Expatriate trainers with twenty or more (20+) years' experience in the Oil & Gas Industry, and will take place at the CNEFP Training Centre in Tibar under supervision of Actemium Oil & Gas Training. We are looking for thirty (30) candidates who meet the below criteria:

### I. Minimum Qualification requirement:

1. Completed either general High School Science & Mathematics program or Secondary Vocational school in electrical/electronic program or
2. Completed Certificate 3 in electrical/electronic skill vocational training program or
3. University and Polytechnic Graduates are welcome to apply

II. Language ability: Fairly able to speak, understand and write in English

III. Nationality: Timorese

### IV. Other expected personal ability requirement needs:

1. Possess "CAN DO" attitude
2. Ability to use computer will be advantageous
3. Highly motivated individual
4. Willing and motivated to learn new skills
5. Experience working in the electrical/electronic field will be advantageous

The application will open from 9<sup>th</sup> October 2018 until 9<sup>th</sup> November 2018, from 8 am to 5 pm. The training program is estimated to start by Q1 2019.

Female candidates are encouraged to apply.
